

New Standard of License Plate

Your license plate will be fully secured with our security screws

Innovative security screws that reverse the old common sense

J.C.C. LOCK®

You can remove your license plate or automobile without damaging it.

Recommended by the Ministry of Land, Infrastructure, Transport and Tourism
Certified as Recognition of Better Security System(RBSS)
patented product

License plates are often stolen and misused

They are...

- attached to stolen vehicles or vehicles for drug trafficking,
- attached to stolen motorcycles for the purpose of snatching,
- attached to vehicles for murder, burglar, kidnap or other vicious crimes,

and used for other secondary crimes

If you have your license plate stolen,

- you can't use your vehicle or motorcycle and your work and everyday life will be greatly affected
- you will have to go through the complicated bureaucratic procedure to re-issue your license plate
